Hi Tett,

I hope all is well with you. I was truly sorry to hear about Don V. The two of you were my introduction to EAC at the St. Louis Convention in 2006 and I will always be grateful to both of you for your warm and immediate acceptance of a newcomer!

I see that a coin that you once owned and purchased from the Roger Cohen fixed price list and sold in the 2002 EAC Sale is up for auction in The Goldberg Auction in September. I am starting to work on die states of the 1808 C2 and am planning to bid on it. Is there any information on the coin that you know of besides what is in the catalog (history etc).

I am also working on a query to EAC about pedigrees and when they are used/not used in auction catalogs. This coin is pedigreed to you in this sale but not in the 2002 sale. I am curious as to why.

Since the EAC Convention this past spring I have upgraded my 1809 C1 with the coin from the Gene Braig Collection. It is slow going when your collection becomes further advanced!

EAC 2010 is already on my calendar. I hope to see you there.

Warmest regards,

Bob Kebler

Bob: I don't have that catalogue at hand. Perhaps it is at the office and I can see it Monday. In the meantime, what does the catalogue say ? According to my records, I bought two specimens of the 1808 C2 from Roger's FPL. The normal die state I still have, and I kept the one with the broken die until the EAC Sale. I will look up Roger's list to see what pedigree, if any, he listed for the coin.

Don's death was a personal loss. We had been friends for decades, and one does just not expect a friend who is so much younger to predecease oneself. Do you have any additional information on what caused his death ? Was it a sepsis or something else ? Tett

Hi Tett,

I wanted to update you on the status of my workings with Roger's material.

1) I have finished making a first pass through all of the boxes, and I have started to organize the material into boxes where the material in each is somewhat related. I will review it again as I go through and organize it. Tentatively, Box 1 will be material related to the first edition of his book; Box 2 will be material related to the second edition of his book; Box 3 will have material related to his personal collection, his business dealings, coin envelopes, and pictures; Box 4 will have material related to various numismatic topics during his career as well as the start of folders of personal correspondence; Box 5 will consist entirely of folders of personal correspondence (which I have separated into folders for many people by name who have lots of correspondence, and a folder of miscellaneous collectors as well); Box 6 will be material related to his publishing's in Penny-Wise as well as material related to Walter Breen; and Box 7 will be auction catalogs, price lists, etc. Each box will be supplied with a basic breakdown as well so hopefully in the future others can easily access the information

2) are there any other half cents that Roger owned that you now own that you do not have the envelopes for? If so, I will be happy to try and find them. Just let me know if there are any you are interested in.

3) my exhibit on Roger for EAC is coming along very nicely. If it is acceptable to you, I would like to use five pieces from the collection in the exhibit. I would acknowledge them as follows:

Acknowledgements

All of the material in the exhibit is from my personal collection of Roger S. Cohen, Jr. material with the following exceptions:

Cohen's EAC Certificate

Walter Breen Letter (from 1953, non-controversial)

Most of the Photographs

Cohen's "Red Book"

"Coinage of the Americas" Program

All of the above are from the Roger S. Cohen, Jr. archival records, courtesy of The Eric P. Newman Numismatic Education Society, St. Louis, Missouri.

Let me know your thoughts on above. Thank you for allowing me the opportunity to catalog the material. I feel privileged and have learned so much!!

Bob: I think that would make a great exhibit. All the half cent guys would enjoy it, and many other EACers also. I have two suggestions: 1) I bought from Debbie after Roger's death all of his half cent files and papers. It is in several large boxes. You would be welcome to go through them if you think you need anything else. This could be either for your exhibit or just for your personal interest. Mike Spurlock spent two days going through this material for his magnum opus on the pedigrees of important half cents. 2) You may want to talk to Mike Packard, who was very close to Roger for many years and who may have some additional suggestions for your exhibit.

I'm glad you obtained several of the auction coins, and nobody gets everything they want at an auction.

We are going to game #6 tonight, and will do our best to bring the Cardinals a winner.

Regards, Tett

Hi Tett,

I was very sorry to miss attending the auction of your coins in September. I tried really hard to be there, but it just wouldn't work out with my work schedule. My results from The Whister and Davy sales were mixed. I bid on 11 coins. On 6 coins I was the underbidder, each time being outbid by Chris McCawley. Three coins I wasn't competitive on, and two of your coins I won. Both are die states of 1808/7 C2. I then purchased from CVM two coins that I was outbid on, a third 1808 C2 die state and an 1808 C3 from Bob's collection that was an upgrade. the 1808 C2 is the only variety that I have decided to collect die states. I lost out on the state 2 from your collection, but now have all of the others except state 7, which looks like it will be very hard to obtain!

I talked with Tom Reynolds, Doug Bird, and Steve Ellsworth at the show this week and they all said that you were there on Thursday. Sorry I missed you. I didn't add anything to my collection.

The main purpose of writing is to ask your opinion on an exhibit that I am thinking about doing at EAC in the spring. It pertains to Roger Cohen, since he has a special connection to me. It would revolve around events in Roger's Half Cent collecting career. I noticed that it was the 59-year anniversary of his first coin sale that he mentioned in the preface of his book, the 40 year anniversary of publishing "Little Half Sisters" in December 1971, the 40th anniversary of his 10/1972 FPL (which you sent a copy to me), the 30th anniversary of his second edition (January 1982), and the 20th anniversary of the auction of his collection (February 1992). I thought I would present the literature associated with each (I have the auction catalog from the New Netherlands Coin Company from 1953, a copy of the FPL that you sent me, that with your permission I would put in the exhibit, as well as both books and the auction catalog). I would personalize this by mentioning my connection, showing an aerial map of where we lived, and also include the 4-5 half cents I own that are pedigreed to Roger. I would like your thoughts on this idea, as well as any suggestions or ideas that you have that would improve this or that I do not know of. Let me know.

Best wishes and Go Cards!

Two items for your consideration. 1) Attached are copies of photos that I have found in the material I have brought home. I think I know who each of the major players are, but I would appreciate your input/confirmation on any that you can tell. 2) There are two large cigar boxes of coin envelopes in the boxes. It would appear to me that there are both of Bill Weber's envelopes for the 1794 C5b and 1794 C6b that he traded with Roger, and that I think you bought at his auction. If this is the case and you feel that you want the envelopes, I would think all of the half cent community would be thrilled if the coins and the envelopes were reunited! Bob

Eric: Bob Kebler is a half cent collector, researcher, and a pediatrician from Kirkwood. He is working on an exhibit for EAC dealing with Roger Cohen. As a child Bob lived on the same street as Roger in Baltimore and played with Roger's children, I believe.

As part of his research he has been going through and organizing the large amount of Roger's papers which I bought from Roger's widow, Debby, after Roger's death, and which I gave to EPNNES. It is a great improvement over what has been many boxes of disorganized material. Bunny

Subject: Exhibit

Bob: Two subjects:

- 1) I have heard several comments about what an outstanding exhibit your Roger Cohen presentation was. One of my major regrets at having to cancel my visit to EAC 2012 is that I missed seeing it. I was particularly looking forward to seeing it. Is there any way I could see the exhibit or a major portion of it before it is disassembled ?
- 2) I have talked to Russ Butcher a couple of times this week. Each time he mentioned how much he appreciated the material you sent him. He said it was not merely the envelopes from Roger's material, but also the other things as well. He said it had increased the pleasure he had in some of the half cents he owned, and stimulated him to do additional research.

Tett,

I would be thrilled to bring the exhibit material to you when I bring back the boxes. It is easy to reassemble, and in the future the only problem doing this again will be the 3-4 items that are part of the archival material. Most of those can be copied, but they look better in real time.

I am doing my best on the boxes. They have been divided into 7 boxes, and I am on box 6. Box 7 is now all auction catalogues, etc. so that one won't take too long. I am hoping at this point to have them done by the end of July (we are going to Spain for two weeks at the end of June).

The envelope project has been a great deal of fun and very educational, as well as more work than I initially thought. Now that I have figured out where all of the material is that is useful, it is much easier. I still have yours and will bring it when we get together. Everyone who so far has participated has been extremely grateful that you allowed the envelopes to be disseminated. Russ Butcher had the most-he has 26 coins pedigreed to Roger, and we were able to match up 18 items. Greg Fitzgibbon had one coin (1794 C2b) that turned out to be erroneously labeled in the Cohen auction catalogue, but was able to send him some very interesting correspondence between Roger and DonV. about that coin and give him the corrected provenance. Jeff Noonan received 3 of 5 envelopes, Bill Finley 0 of 2 (although we are still getting more info about one coin), Franklin Noel 2 of 5, and Walt Scheer 0 of 1. Rod Widok will receive 4 of 9, but unfortunately one coin that he bought as a Showers coin from Roger's auction turned out to be mistakenly pedigreed as well. And I was able to match 3 of my 4 coins, so along with your 4 of 5 matches the success rate has been pretty good. Coupled with all of Roger's info on condition census, pedigree, etc. I think has enriched the data on many coins. I have asked in Region 8 and sent a item for publication in the July P-W letting collectors know of the project. There were several others at EAC who I talked to who have not sent me any information (Jim McGuigan, Jon Lusk, David Consolo, Mike Demling, and probably some others) who I hope to hear from. It makes almost 40 envelopes, invoices, etc. as well as two corrected pedigrees-way more successful than I hoped.

I hope you are fully recovered from your "incident". I will let you know as soon as I finish with the rest of the boxes and we can get together.

Regards,

Bob

 Tett,

Thanks for the nice words. I would be thrilled to search for envelopes for Russ or anyone else who you think would be interested. I would only leave it up to you as the custodian of the records as to who the envelopes would be distributed to. I think it is great idea that as many of the envelopes as possible are reunited with the coins. It will be a fun project as there are over 750 envelopes, inserts, and holders, most of which are just tossed into boxes. I am learning handwriting, etc. which is how I spotted Bill Weber's 1794 C5b and C6b envelopes, and I have Roger's detailed records to help. Have Russ (and anyone else) send me their list, and this can be mentioned at the EAC Convention as well.

Here also is my plan for the exhibit on Roger at EAC in Buffalo.

Case #1

- Title is "Remembering Roger Cohen"
- A short introductory biography about Roger.
- The 1953 New Netherlands Auction Catalog of Roger's initial collection along with 2 inside pages, and comments noting that it was cataloged by Walter Breen, as well as some notes on Roger's early life
- Roger's original EAC Certificate
- A letter to Walter Breen and return notes from Breen dated 1953 (showing long-standing relationship) and a brief note on the acrimony that developed
- A business card and short note on Roger's career as a CPA
- A picture of Roger
- An aerial picture of the neighboring homes where Roger lived and I grew up, the "museum" in Roger's house, and a short discussion of my connection to him.

Case #2

- My copy of 1st Edition American Half Cents with Roger's inscription inside noting it is one of the first 25 copies delivered
- An advertisement Roger placed in The Numismatist December 1971 announcing the book
- A narrative with quotes from Roger describing why he wrote the book and the aftermath

- Roger's FPL #1 from October 1972
- A section discussing Roger's other interests (History, Civil War, Rifles and Shooting, etc) with some visuals
- Pictures of the two Half Cent Varieties that Roger discovered (1808/7 C1 and 1795 C6b)
- Roger's "Red Book" of notes on the coins of various Half Cent varieties

Case #3

- Yellow and Green (Gene Braig's) copies of 2nd edition of "AHC" with a list from Roger to whom he gave presentation copies
- Brochure on "The Coinage of Americas" Conference at ANS in 1984 in which Roger participated
- Roger's worksheet for his "megatrade" with Bill Weber in 1989 that brought him the 1794 C5b and C6b
- An enlarged picture and description of the differences in Edge Lettering on Half Cents
- Roger's "Bullshit" stamp which he used frequently on his correspondence
- The four Half Cents that I own that were previously owned by Roger (1794 Clb, 1808/7 C2 Manley States 1, 3, and 6)
- Twelve historical coin envelopes and inserts from the over 750 that remain in his collection
- The auction catalog of his coins in 1992
- Acknowledgement of the four items above that are not from my personal collection

I hope to hear from Russ and other collectors as well about the envelopes.

Bob

Bob: My response to your e-mail:

1) I am thrilled at your organization of the material, and that you have learned a lot.

2) Your proposed acknowledgement of the material is just fine.

3) I still have five coins that were in Roger's collection and would be delighted to have any of the associated envelopes or other material. They are:

- a) The Mickley Restrike of 1811, purchased from Roger's Fixed Price List of 1972.
- b) The 1794 5b, Superior's Roger Cohen Sale of 2/2/92 lot #28
- c) 1794 6b, ibid lot #30
- d) 1795 2b, ibid lot #46
- e) 1842 circulated and plated Original Proof, ibid lot #355

4) Would you mind if I volunteered your search for envelopes to Russ Butcher, who bought a number of Roger's coins in the Davy Sales ? With your approval I will send him your e-mail address and offer of envelopes.

Thanks very much for your update.

Bob: I spoke to Russ today and conveyed your kind offer to look for the envelopes for the coins he owns which once belonged to Roger. Of course he was delighted. He said he needed to put together a list with die state information, etc. He said he would give you his list at EAC. Thanks again for helping return some of this material to the coins. Tett

Subj: Re: Roger Cohen Material

Tett,

Thanks for the nice words. I would be thrilled to search for envelopes for Russ or anyone else who you think would be interested. I would only leave it up to you as the custodian of the records as to who the envelopes would be distributed to. I think it is great idea that as many of the envelopes as possible are reunited with the coins. It will be a fun project as there are over 750 envelopes, inserts, and holders, most of which are just tossed into boxes. I am learning handwriting, etc. which is how I spotted Bill Weber's 1794 C5b and C6b envelopes, and I have Roger's detailed records to help. Have Russ (and anyone else) send me their list, and this can be mentioned at the EAC Convention as well.

Here also is my plan for the exhibit on Roger at EAC in Buffalo.

Case #1

- Title is "Remembering Roger Cohen"
- A short introductory biography about Roger.
- The 1953 New Netherlands Auction Catalog of Roger's initial collection along with 2 inside pages, and comments noting that it was cataloged by Walter Breen, as well as some notes on Roger's early life
- Roger's original EAC Certificate
- A letter to Walter Breen and return notes from Breen dated 1953 (showing long-standing relationship) and a brief note on the acrimony that developed
- A business card and short note on Roger's career as a CPA
- A picture of Roger
- An aerial picture of the neighboring homes where Roger lived and I grew up, the "museum" in Roger's house, and a short discussion of my connection to him.

Case #2

- My copy of 1st Edition American Half Cents with Roger's inscription inside noting it is one of the first 25 copies delivered
- An advertisement Roger placed in The Numismatist December 1971 announcing the book
- A narrative with quotes from Roger describing why he wrote the book and the aftermath
- Roger's FPL #1 from October 1972
- A section discussing Roger's other interests (History, Civil War, Rifles and Shooting, etc) with some visuals
- Pictures of the two Half Cent Varieties that Roger discovered (1808/7 C1 and 1795 C6b)
- Roger's "Red Book" of notes on the coins of various Half Cent varieties

Case #3

- Yellow and Green (Gene Braig's) copies of 2nd edition of "AHC" with a list from Roger to whom he gave presentation copies
- Brochure on "The Coinage of Americas" Conference at ANS in 1984 in which Roger participated
- Roger's worksheet for his "megatrade" with Bill Weber in 1989 that brought him the 1794 C5b and C6b
- An enlarged picture and description of the differences in Edge Lettering on Half Cents
- Roger's "Bullshit" stamp which he used frequently on his correspondence
- The four Half Cents that I own that were previously owned by Roger (1794 C1b, 1808/7 C2 Manley States 1, 3, and 6)
- Twelve historical coin envelopes and inserts from the over 750 that remain in his collection
- The auction catalog of his coins in 1992
- Acknowledgement of the four items above that are not from my personal collection

I hope to hear from Russ and other collectors as well about the envelopes.

Subject: Re: Roger Cohen Material

Bob: My response to your e-mail:

- 1) I am thrilled at your organization of the material, and that you have learned a lot.
- 2) Your proposed acknowledgement of the material is just fine.
- 3) I still have five coins that were in Roger's collection and would be delighted to have any of the associated envelopes or other material. They are:
 - a) The Mickley Restrike of 1811, purchased from Roger's Fixed Price List of 1972.
 - b) The 1794 5b, Superior's Roger Cohen Sale of 2/2/92 lot #28
 - c) 1794 6b, ibid lot #30
 - d) 1795 2b, ibid lot #46
 - e) 1842 circulated and plated Original Proof, ibid lot #355
- 4) Would you mind if I volunteered your search for envelopes to Russ Butcher, who bought a number of Roger's coins in the Davy Sales ? With your approval I will send him your e-mail address and offer of envelopes.

Thanks very much for your update.

Hi Tett,

I wanted to update you on the status of my workings with Roger's material.

1) I have finished making a first pass through all of the boxes, and I have started to organize the material into boxes where the material in each is somewhat related. I will review it again as I go through and organize it. Tentatively, Box 1 will be material related to the first edition of his book; Box 2 will be material related to the second edition of his book; Box 3 will have material related to his personal collection, his business dealings, coin envelopes, and pictures; Box 4 will have material related to various numismatic topics during his career as well as the start of folders of personal correspondence; Box 5 will consist entirely of folders of personal correspondence (which I have separated into folders for many people by name who have lots of correspondence, and a folder of miscellaneous collectors as well); Box 6 will be material related to his publishing's in Penny-Wise as well as material related to Walter Breen; and Box 7 will be auction catalogs, price lists, etc. Each box will be supplied with a basic breakdown as well so hopefully in the future others can easily access the information

2) are there any other half cents that Roger owned that you now own that you do not have the envelopes for? If so, I will be happy to try and find them. Just let me know

if there are any you are interested in.

3) my exhibit on Roger for EAC is coming along very nicely. If it is acceptable to you, I would like to use five pieces from the collection in the exhibit. I would acknowledge them as follows:

Acknowledgements

All of the material in the exhibit is from my personal collection of Roger S. Cohen, Jr. material with the following exceptions:

Cohen's EAC Certificate

Walter Breen Letter (from 1953, non-controversial)

Most of the Photographs

Cohen's "Red Book"

"Coinage of the Americas" Program

All of the above are from the Roger S. Cohen, Jr. archival records, courtesy of The Eric P. Newman Numismatic Education Society, St. Louis, Missouri.

Let me know your thoughts on above. Thank you for allowing me the opportunity to catalog the material. I feel privileged and have learned so much!!

Hi Tett,

I have listed below what I have found in Roger's material that pertains to the coins you still have that Roger previously owned. Would you like me to bring it to the EAC Convention (it fits in a folder) or give it to you when I return all of the boxes (hopefully by the end of May). You may already have much of it. Looking forward to seeing you in Buffalo in a couple of weeks. Bob

1811 Mickley Restrike

The pedigree is: New Jersey Historical Society Sale 1969- Raymond D. Munde 9/1972 for \$2000- Roger S. Cohen, Jr. 10/17/1972 through his FPL#1 for \$2000- R. Tettenhorst

The envelope is enclosed.

A copy of the "Red Book" listing for the variety is enclosed.

A copy of a letter to W. R. T. Smith dated 10/5/1973 listing Roger's knowledge of the condition census for the variety.

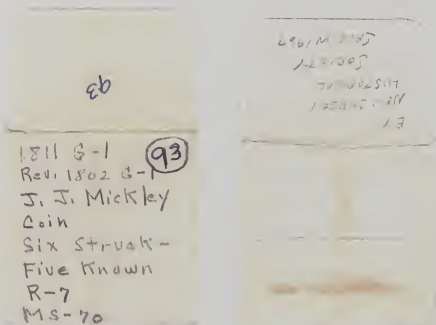

A copy of a letter to Ron Guth detailing his knowledge of the condition census for this variety. Roger did not like the Proof-Only or Restrike Coins at all, and was quite vocal about this.

A series of letters between Roger and Ernest Montgomery about the 1811 Mickley Restrike. Roger lists an expanded census for the coin, and Dr. Montgomery's article on the 1811 Restrike is enclosed.

A copy of the listing of sales to you from Roger's FPL#1, including the Mickley Restrike.

A copy of the valuation list for Munde's coins and Roger's inventory records noting the sale of the Mickley Restrike are enclosed.

The envelope is in Ray Munde's handwriting. The 93 circled is Munde's stock number. As you likely know, Roger bought Munde's collection in 9/1972, and along with purchasing Paul Munson's collection in 6/1971, gave Roger a complete collection (at the time) of Half Cent varieties. He combined the coins from the 3 collections into his primary collection, and sold off or traded many of the coins to upgrade his collection.

To W. A. T. Smith, 10/5/73.

He retired from the Navy and moved to this area. Due to his Half Dollar (138 CUNTON) interest he wanted to sell his Half Cents which he had been collecting for 10 years. Between myself, Sam ~~and~~ Unger, Richie Gross and Bill Raymond we cleaned him out of virtually everything worth having.

The 1831 from Munde has the following

Pedigree ATWATER SALE 1946 - BEN'S STAMP COIN 1950 -
Nevada collector - Munde - KSC. 1/100 Caint
Plated in my book.

The 1811 Michley Restruck is as follows.

6 Specimens struck (5 Known)

- 1) NEW JERSEY HISTORICAL SOCIETY - MUNDE - KSC - R. TETT.
- 2) DUPONT - DOROTHY NELSON - PATRICK
- 3) SHOWERS - ?
- 4) MILES - BOWERS - ?
- 5) BROBSTON - C. JON HANSON

There have been others cataloged such as Alward, Allenburger etc but they are believed to be either 2, 3 or 4 listed above.

The 1811 Restrike data is as follows.

Yours of 7/16 received and I'll try to answer.

1) Yes I have these photos and I'm sending them to you so that if you can use them on 8/13 you'll have them - Just Mail back when you finish.

2) I became aware of more than 6 Specimen Portraits in 1981 or 1983, I'll give you more notes on page 124 of my second edition I state six are known, there was written in the summer of 1981.

3)+4) The egomaniac's listing needs some correction but is substantially correct. I will list and give numbers and show who owes to my knowledge.

I've gone over your want list and I have none
of them. The 1809 #1 is Now down to R-5 with over
40 specimens known. The same applies to 1805 #2. You should
be able to get these from EAC dealers. The 1793* + 1799 should
be No Problem either than the Cost. 1799 #2, 1806 #3 and 1808 #1
remain as very rare B-7 + 4th B-6 so it may be a while
before you get them.

It was good to hear from you

Dear Roger -

Many thanks for allowing me to see the picture and the information. The following I have learned:

- ① Lot #274 of the Lunder sale by W^m Doyle was purchased at \$6500 by bidder #153, Jon Hansen; since he is presumed to own #1 per your letter, perhaps, he was agent for Pantuck or Weiziger (?). Lot #4 or #11
- ② Lot #473 from the Virgil Brand Paint Sale of Nov. 7, 1983 (somehow I'm missing that catalogue and have written to John Bergman to see if he has one) went to Anthony Ureanova at \$8500. Subse-
quently it showed up in a Robert L. Hughes inventory. Whereabouts now is a guess. Let you say likely #10

- ③ Heritage Baltimore ANA Sale of 1985
lot # ? (I'm also missing this Catalogue.)
was purchased by a Wallace Lee of Port Huron,
Mich.

I have written to Jon Hansen, Don Portrich, JJ. Patman,
Jim Mc Guigan, R. Tetterton (this name makes
about as much sense as Donald Groves & P. Lee;
Harry Stewart (I also for Jimmy Swaggart; I don't
know R. Tetterton's real name) and Wallace Lee
and am awaiting replies. Here's hoping!

I have reviewed, amended, deleted etc my
comments numerous times. How'd you ever
write your masterpiece and then return for
a (Second Edition); and maybe a third?

At any rate I keep thinking of David Binkley's
comment during the Democratic Convention:

"No politician has ever lost a single vote
by what he didn't say."

Dear Roger,

Enclosed is a copy of the information that was used along with slides at the E.S.C. Meeting during the PAN Convention of August 13. Since then, I have received descriptions and weights of two additional specimens and the Charter Membership of the 1811 Portaine Half Cent Preservationists in (4). Again, many thanks for your help. I hope that you are feeling better.

July 16, 1988

Dear Roger,

I have been desirois since our recent telephone conversation of being able to send to you a transcript of my investigation of the 1811 Restrike. However, it is becoming increasingly clear that I shall not accomplish this before the last minute before the EAC meeting of the PNA convention at 1 pm on August 13. Even though ^{it} it will be inappropriate to call it complete because it will be that that is where I stopped. Thus, I am writing to you at this time asking for your help in the following:

- 1) Do you have pictures of the 1802 Reverse B early and late die states as shown in your book?
- 2) When did you become aware that there were more than six specimens?
- 3) Do you agree with the egomaniac's pedigree listing?
- 4) Are you free to tell me who else has one of these pieces? Mine is the R.L. Miles specimen.
- 5) Have you ever seen more than one example at the same setting?
- 6) Please tell me anything else that you care to share from the recesses of your mind.

I trust that this will find you in better health and able to attend the PAN show. Perhaps you will be my guest at dinner?

I can imagine that you are up to your apical pate with Want Lists but I cannot refrain:

1793 C₂ - I prefer a G to VG example as it amazes me
how close in appearance my other 3 varieties are
1794 C_{1a}, C_{6a}, 7, 8
1797 C_{3c}
1805 C₂
1806 C₃
1808 C₁
1809 C₁
